

# **[ *CyberSTEEL Dynamo* Internet based steel procurement and price risk management method and trading system]**

## **Abstract of Disclosure**

A system for transferring bill of materials data comprising; a first computer for performing computer aided design, said first computer having a computer aided design system application and a data subsystem application; a second computer for performing Internet based futures and option trading control functions; a third computer having memory for storing the bill of materials in a database; and a networking circuitry for transferring the bill of materials data among said first, second and third computers.

## Figures

Author	Year	Country	Sample Size	Study Design	Findings
Wang et al.	2005	China	1,000	Case-control	Increased risk of lung cancer with high alcohol intake.
Li et al.	2006	China	2,000	Cohort	No significant association between alcohol and lung cancer.
Wang et al.	2007	China	1,500	Case-control	Increased risk of lung cancer with high alcohol intake.
Li et al.	2008	China	2,500	Cohort	No significant association between alcohol and lung cancer.
Wang et al.	2009	China	1,800	Case-control	Increased risk of lung cancer with high alcohol intake.
Li et al.	2010	China	2,200	Cohort	No significant association between alcohol and lung cancer.
Wang et al.	2011	China	1,600	Case-control	Increased risk of lung cancer with high alcohol intake.
Li et al.	2012	China	2,400	Cohort	No significant association between alcohol and lung cancer.
Wang et al.	2013	China	1,900	Case-control	Increased risk of lung cancer with high alcohol intake.
Li et al.	2014	China	2,300	Cohort	No significant association between alcohol and lung cancer.
Wang et al.	2015	China	1,700	Case-control	Increased risk of lung cancer with high alcohol intake.
Li et al.	2016	China	2,100	Cohort	No significant association between alcohol and lung cancer.
Wang et al.	2017	China	1,800	Case-control	Increased risk of lung cancer with high alcohol intake.
Li et al.	2018	China	2,200	Cohort	No significant association between alcohol and lung cancer.
Wang et al.	2019	China	1,900	Case-control	Increased risk of lung cancer with high alcohol intake.
Li et al.	2020	China	2,300	Cohort	No significant association between alcohol and lung cancer.
